PROFILE SUMMARY

I am a French apprentice in my second year of engineering school, with four years of experience as a web developer. **Currently looking for a 9-week internship** abroad to gain practical experience and enhance my skills. I enjoy collaborating with others, learning new technologies, and tackling challenges with a proactive mindset.

PROFESSIONAL EXPERIENCE

Finvens
2023 – 2025

Apprentice Full Stack Developer

- Migrated a business-critical application (200+ daily users) from legacy PHP 5 to Symfony 6 (REST API) and Nuxt 3/Vue.js/TypeScript.
- Optimized data models and led feature redesigns, improving performance and maintainability.
- Collaborated with teams (Product, QA, Support) in Agile context.

Sopra Steria
2022 - 2023

Apprentice Full Stack Developer

- Designed and deployed a custom ERP used daily by 80+ employees across 10 teams.
- Built web-based management tools (JavaScript, PHP, SQL) for schedules, meetings, and paid leave.
- Directed the full project lifecycle: requirements analysis, UI/UX design, database architecture, and implementation.

Personal Projects

- Portfolio Website – Built with Nuxt.js to showcase my skills.
- Pomodoro App: Flutter app for time tracking & task management.
- Accounting Firm Website – elevating client acquisition & SEO visibility.
- AI Doodle Jump – Trained neural network autopilot using genetic.
